WLC News: The first three days for the teachers included Step-up Day for both the 6th and 8th grade. Multiple meetings which included Faculty, Leadership, MS Team meetings, Power Teacher workshop, and a Work Study Practices Meeting to discuss Electronic Portfolio's. Teachers also had additional time to prep their rooms for the arrival of students. **First day of school went very smoothly.** Everyone met in the gymnasium where we welcomed all new staff and students to the WLC Family. Superintendent Lane welcomed the newbie's as well. The theme of the day was, "Believe in your Self(ie)." Teachers decorated the bulletin board outside the main office with selfie pictures and a hash tag message about doing something today that your future self will thank you for. We passed the same message on to the students. We asked them to take selfie pictures and email them to Linda Draper. The pictures are going on the bulletin board along with the teachers. Board members are welcome to participate.

AP English Literature and Composition Exam news: Sixteen seniors took the exam in May. All eight students from the AP English Lit course took the test, along with seven students from the Honors British Literature class and one home schooled student. Of the sixteen students, nine (56%) scored a three or above. (A three or above awards them English credit at most four year colleges) Of the eight AP students who took the preparatory class as their English 12 credit, six (75%) scored a three or above.

The maintenance staff worked very hard all summer cleaning, repairing, painting, moving classrooms and much more getting our school ready for the start of school. Thank you to the Maintenance staff for caring so much and working so hard.

Several teachers completed summer curriculum work. The departments involved in the curriculum work included LA Department, Math Department, Multi-Media, Unified Arts Department, and the nursing department.

Chrome Books have arrived. We've started the distribution process. Prior to passing out the chromebooks Technology Director Kevin Verratti and I reviewed a list of expectations with the students which reinforced the importance of taking good care of the devices.
