Student Support Services Report
August 2017

The summer months have been very productive for special education staff and students. Our Extended School Year program (Summer Learning Adventure) launched on July 11th and just ended on August 10th. 30+ students were fully engaged in “fun” reading, writing, math and science activities, with a dose of recommended individualized therapies.... all designed to maintain the learned skills of our most challenged students.

Individualized Education Plans for all students for the 2016-17 school year have been compiled and units for various related services, hours required for direct instruction by special educators, and hours required for paraeducator support in classrooms have driven decisions regarding case management, contracted hours for related service providers and building/classroom placements for paraeducators.

We are pleased to have all special education staff, contracted services providers and paraeducators returning for the 2016-17 school year and we welcome the addition of Kimberly Plourde, Preschool Teacher to our special education team.

Respectfully Submitted,

Betty Moore
Director of Student Support Services
