Assessment Validation - update

The validation process of mid-year and final exams continues. Throughout the process staff have made the following comments:

1. This process is helping to identify biases or inconsistencies in our exam questions.
2. Our collaboration is resulting in higher-quality questions. My colleagues are helping me to provide questions that are clear, free from errors, and aligned with learning objectives / competencies.
3. Our school will now have assessments that are at a higher level of difficulty and more in depth across courses and sections.
4. I like growing professionally and I see how we are learning from each other, and refining our skills.
5. I can see that a well-designed assessment can identify areas of strength and areas in need of improvement. Our work together will benefit teacher strategies and student learning.

Our work continues: The process of working together has fostered teamwork and has strengthened collegial relationships that will lead to additional improvements in teaching and learning throughout the school.
